RELEVANT EXPERIENCE

Practice Ignition | Sydney **Mar 2017 – Present** *Backend Engineer*

Practice Ignition is a cloud-based proposal management and client engagement software. I work with Ruby on Rails, PostgreSQL and Heroku.

- Currently working as a backend engineer, managing and developing the core services of the platform.
- Over my time with Practice Ignition, I have developed and managed various integrations with 3rd party systems (Stripe, Zapier, Xero, Quickbooks).

RateCity | Sydney **Jan 2015 – Mar 2017** *Full Stack Developer*

RateCity is one of Australia's leading financial comparison websites. I worked with Ruby on Rails, Elasticsearch, PostgreSQL, NodeJS, React and Amazon AWS.

- Involved in the migration of two Ruby on Rails applications to NodeJS, React and Elasticsearch.
- Lead an infrastructure migration from managed hosting to AWS.

Captiv8 | Sydney **Nov 2012 – Dec 2014** *Full Stack Developer*

Captiv8 is a digital agency specialised in online digital campaigns. I worked with PHP (Zend Framework, Code Igniter, CakePHP), MySQL and Amazon AWS.

- Part of a small team that builds numerous online digital campaigns.
- Built and designed a content distribution system called Relay.

BTA Active | Sydney **Feb 2011 – Oct 2012** *Full Stack Developer*

BTA Active is a digital agency specialised in custom web application and online digital campaigns. I worked with CakePHP, MySQL and Wordpress.

- Created and maintained a cloud based travel management system using CakePHP.
- Created and maintained a cloud based insurance investigator management system using CakePHP.

- Delivered many unique projects over tight deadlines

Binus University | Jakarta **Apr 2009 – Sep 2010** *Network Engineer*

Binus University is a private university in Indonesia. I work as a network engineer and system administrator.

- Managed networks using Mikrotik and Cisco for internal and external clients.
- Maintained Linux and Unix servers.
